What is a Hydrafacial?

This innovative treatment is a one-stop shop for achieving a healthier, more youthful look. It combines cleansing, exfoliation, extraction, and hydration into a single, 30-minute session.

Here's what you can expect:

- **Gentle yet Effective Exfoliation:** The treatment uses a water-based solution to remove dead skin cells and impurities, leaving your skin feeling refreshed and smooth.
- **Painless Extractions:** Gone are the days of dreaded extractions! The Hydrafacial uses a gentle suction technique to remove blackheads and whiteheads without irritation.

- **Hydrating Boost:** After cleansing and exfoliation, your skin is deeply hydrated with nourishing serums customized to your specific needs. This plumps your skin and reduces the appearance of fine lines and wrinkles.
